

MASTERCLASS FOR BUSINESS OWNERS

How to Get **Free Leads** Using Google Business Profile

Learn how to use your Google Business Profile to attract potential customers and generate leads organically — without spending money on ads.

BEFORE WE START

What is Google Business Profile?

Think of your Google Business Profile as a **free digital signboard** for your business on Google.

But it can do much more than display your business information. A properly optimized profile can help potential customers discover your business when they are actively searching for the products or services you provide.

EXAMPLE A business owner in Kochi needs digital marketing help

They search Google for:

🔍 Best digital marketing agency in Kochi

If Beezy Solutions appears in the search results, the customer can see:

Location

Google Reviews

Photos

Services

Phone Number

Website

Enquiry Options

If they like what they see, they can contact the business. **That's how a Google search can become a lead.**

WHY ARE THESE LEADS VALUABLE?

The biggest advantage is search intent.

The person isn't simply browsing. They are actively looking for a solution to a problem or a service they need.

"Best digital marketing agency in Kochi"

The person is already looking for a digital marketing agency. If your business appears in that search, the customer already knows what they need — they now need to decide **which business to contact**.

This is why Google Business Profile can help businesses attract **high-intent potential customers**.

The simple formula

Customer has a need

Customer searches on Google

Your business appears

Customer checks your profile

Customer contacts you

LEAD

AND THE BEST PART?

You can generate these opportunities **without paying for every click or lead** through Google Ads.

YOUR PROFILE CAN WORK 24/7

24 hrs a day
7 days a week

Think of it like a free salesperson — and you don't have to pay it a salary. 😊

KEEP EXPECTATIONS REAL

Of course, results depend on factors such as:

Profile quality

Competition

Location

Search demand

Consistency

But when properly optimized, your profile can become an important source of **organic visibility and enquiries**.

WHAT YOU'LL LEARN IN THIS MASTERCLASS

Four moves that turn searches into **enquiries**.

01

Complete & optimize your profile

Make sure every important section of your Google Business Profile is properly completed.

02

Add photos, videos & regular updates

Keep your profile active, fresh and useful for potential customers.

03

Use SEO-friendly keywords

Help Google understand what your business does, what services you provide and where you operate.

04

Get more genuine Google reviews

Build trust by making it easy for genuine customers to share their experiences.

PAY SPECIAL ATTENTION TO POINT 4

Reviews are an important part of building trust and improving your overall Google presence.

GETTING STARTED

Having trouble finding your Google Business Profile?

Before optimizing your profile, you need to know where to find and access it. If you're asking "Where is my Google Business Profile?" or "How do I open my business profile?" — here's exactly how.

Step-by-step: how to find your profile

- 1 Open Google and sign in with the Google account that manages your business.
- 2 Search Google for your exact business name — e.g. **Beezy Solutions**.
- 3 If the correct profile is connected to your account, Google may show your Business Profile management panel directly in the search results.
- 4 Look for options such as:
[Edit profile](#) [Read reviews](#) [Add photo](#) [Add update](#) [See your profile](#)
- 5 Click **Edit profile** when you want to update your business information.
- 6 If you manage more than one business, make sure you are working on the correct Business Profile before making changes.

 PRACTICAL EXAMPLE · ABC TRAVELS

Sign in to the account that manages ABC Travels → search "ABC Travels" → open the management area → click **Edit profile** → update the information → save.

 WATCH THE VIDEO

How to Open Google Business Profile Manager (Full 2024 Guide) ↗

Once you've found your profile, let's start optimizing it.

**TIP**

If the profile does not appear, first check whether you are signed in with the Google account that has access to that Business Profile.

01

COMPLETE & OPTIMIZE YOUR PROFILE

Complete your Google Business Profile **properly.**

Many business owners create a profile, add their business name and phone number, and stop there. **That's not enough.**

Your profile should clearly tell Google and your customers:

WHO
are you?

WHAT
do you do?

WHERE
do you operate?

Your profile checklist

Make sure these sections are properly completed:

☒ Business Name

☒ Primary Category

☒ Additional Categories

☒ Address

☒ Service Areas

☒ Phone Number

☒ Website

☒ Business Hours

☒ Services

☒ Business Description

☒ Booking / Enquiry Options

EXAMPLE · TRAVEL AGENCY IN LONDON

Give Google every useful detail.

Imagine you run a travel agency in London. Don't simply create your profile and leave the information incomplete — give Google as much useful and relevant information as possible through the appropriate profile sections.

How to add or change your primary category

- 1 Open your Business Profile.
- 2 Click **Edit profile**.
- 3 Find the **Business category** section.
- 4 Choose the category that most accurately describes your main business. For a travel agency:
Primary Category: Travel Agency
- 5 Save the change.

**EXAMPLE**

If a company provides travel services but also offers visa assistance, don't automatically make "Visa Service" the primary category just because it is one of the services. Choose the category that best represents the main business, then add the other relevant services separately.

How to add services

- 1 Open your Business Profile.
- 2 Go to **Edit profile** and find the **Services** section.
- 3 Add only the services your business actually provides.
- 4 Write the service name clearly.
- 5 Where available, add a short description or relevant details.

PRIMARY CATEGORY

Travel Agency

SERVICE AREA

London and the areas you actually serve.

SERVICES

International Tours

Honeymoon Packages

Visa Assistance

Flight Booking

Holiday Packages

Family Holidays

Corporate Travel

Customized Tour Packages

IMPORTANT

Don't add services only because you want to rank for a keyword. Add services that you genuinely provide.

How to add service areas

- 1 Open your Business Profile.
- 2 Select **Edit profile**.
- 3 Find **Location / Service area**.
- 4 Add the cities, areas or regions that your business actually serves. For example, a digital marketing agency serving:
 Kochi  Ernakulam  Thrissur
- 5 Review the list and save the changes.

PRACTICAL EXAMPLE

If you only provide services in Kochi and Ernakulam, don't add every city in Kerala just to try to reach more searches. Add the locations that genuinely match your service coverage.

 OPTIMIZE YOUR BUSINESS DESCRIPTION

Explain what you do, where and for whom.

Your business description is an important place to explain:

What you do

Where you operate

What services you provide

PRO TIP

Use the available character limit effectively and include relevant keywords naturally.

EXAMPLE DESCRIPTION

ABC Travels is a trusted **travel agency in London** offering **international holidays**, **customized tour packages**, **honeymoon packages**, **family holidays**, **visa assistance**, **flight bookings** and **corporate travel** services.

We help customers plan memorable holidays with personalized **travel planning** and complete travel assistance.

Whether you're looking for a honeymoon holiday, family vacation, **international tour** or customized travel package from London, our experienced travel team is here to help you plan your journey.

What did we do here?

Instead of randomly repeating keywords, we naturally included relevant phrases such as:

Travel Agency in London

International Holidays

Customized Tour Packages

Honeymoon Packages

Family Holidays

Visa Assistance

Flight Booking

Corporate Travel

International Tours

Travel Planning

THE GOAL

Use the available space to clearly explain your business while naturally including the services and locations your customers are actually searching for. **Don't stuff keywords. Make the description useful first and SEO-friendly second.**

ADD YOUR SERVICE AREAS

Show the places you **actually** serve.

If you're a service business, make sure you mention the locations you actually serve. For example, if you are a digital marketing agency serving:

Kochi

Ernakulam

Thrissur

Make sure your profile accurately reflects the areas you serve.

ADD YOUR BOOKING OR ENQUIRY LINK

Make it **easy** to contact you.

Getting someone to your profile is only half the job. You also need to make it easy for them to contact you. Depending on your business, you can provide:

Phone

Website

Booking Link

WhatsApp

REMEMBER

Don't just get profile visitors.

Turn profile visitors into **enquiries**.

KEEP YOUR BUSINESS INFORMATION CONSISTENT

Same details, everywhere.

Your business information should remain consistent across the internet. Check your:

Website

Instagram

Facebook

LinkedIn

Other Business Profiles

How to check business information consistency

Create a simple checklist of your important business information:

Business Name	Beezy Solutions
Phone	+91 9037 811 776
Website	beezy solution.in
Address	Room No 263, 3rd Floor, DD Vyapar Bhavan, Kadavanthra, Kochi, Ernakulam, Kerala 682020
Hours	11 AM to 8 PM

- 1 Check the information on your Google Business Profile.
- 2 Check the same information on your website.
- 3 Check Instagram, Facebook and LinkedIn.
- 4 Correct important differences where necessary.

EXAMPLE

If Google shows **Beezy Solutions · +91 9037 811 776** but your website shows a different phone number, review which number is the current official contact number and update the relevant profile. Try to keep important business details consistent across your online presence.

02

ADD PHOTOS, VIDEOS & REGULAR UPDATES

Don't let your profile look dead.

Imagine searching for a business and seeing:

One old photo

No recent updates

Nothing new for years

Would you feel confident contacting them? **Probably not.** So regularly add real and useful content to your Google Business Profile.

What can you upload?

Office Photos

Team Photos

Videos

Projects

Products

Customer Work

Events

Achievements

Behind the Scenes

Show people what your business
actually looks like.

 BONUS KNOWLEDGE

Google Photos & Google Posts are **not the same.**

This is something many business owners don't know.

 PHOTOS

Visual content that shows your business.

Your office

Your team

Your products

Completed projects

 POSTS / UPDATES

Small updates or announcements.

"Our new digital marketing package is now available."

"We have launched a new weekend tour package from London."

How to create a Google Business Profile post / update

- 1 Open your Business Profile on Google.
- 2 Choose the option to create/add an update or post, where available.
- 3 Write a short, useful update.
- 4 Add a relevant photo or video when appropriate.
- 5 Add a suitable call-to-action or link if the available post format supports it.
- 6 Preview the post and publish it.

EXAMPLE · TOPIC: NEW SERVICE

"Looking for social media management services in Kochi? Our team helps businesses with Instagram management, content creation and social media growth."

The purpose is not just to post frequently. The post should give a potential customer useful information.

Photos = Show your business

Posts = Tell what's happening

USE BOTH.

 BONUS TIP

Use keywords naturally in your **posts**.

INSTEAD OF

"We are excited to announce our new service!"

TRY

"Looking for social media management services in Kochi? Our team helps businesses with Instagram management, content creation and social media growth."

Now the post is useful to the customer while naturally mentioning relevant services and location.

03

USE SEO-FRIENDLY KEYWORDS

What is a **keyword**?

A keyword is simply what people type into Google when they're looking for something.

 Study abroad consultant in London

That's a search phrase — and it's also a relevant keyword for that business.

EXAMPLE Study abroad consultancy in London

Relevant searches could include:

 Study abroad consultant in London

 Overseas education consultant

 Canada education consultant

 UK study visa consultant

 Study abroad services

WHERE CAN YOU USE THESE KEYWORDS?

Four places keywords belong.

01 · BUSINESS DESCRIPTION

Explain what you do naturally.

02 · SERVICES

Add the services you actually provide.

03 · GOOGLE POSTS

Create useful posts around your services.

04 · REVIEW RESPONSES

Respond to customers naturally and mention relevant services when appropriate.

How to respond to Google reviews

- 1 Open your Business Profile.
- 2 Open the **Reviews** section.
- 3 Find the customer review you want to respond to.
- 4 Write a short, personalized response.
- 5 Thank the customer and address their experience naturally.

C**Customer review**

“We worked with ABC Travels for our honeymoon trip and the team was very helpful.”

POSSIBLE RESPONSE

“Thank you for sharing your experience! We’re happy that our team could help make your honeymoon trip a smooth one. We truly appreciate your support.”

**TIP**

Avoid copying and pasting exactly the same reply to every customer. Personalize the response based on the actual review.

THE GOAL IS SIMPLE

You want Google to clearly **understand:**

What you do

What services you offer

Where you operate

Who you serve

▲ BONUS TIP · BUSINESS NAME KEYWORDS

Keep your business name **real.**

You may have seen businesses adding keywords to their Google Business Profile name.

ACTUAL BUSINESS NAME

Beezy Solutions

SOME MARKETERS MAY TRY

Beezy Solutions – Digital Marketing & Consulting Company in Kerala

The idea is to include keywords such as **Digital Marketing** **Consulting** **Kerala** to try to improve visibility.

IMPORTANT WARNING

Google's guidelines say your business name should reflect your real-world business name, without adding unnecessary keywords. Google doesn't officially recommend adding keywords to your business name.

04

THE MOST IMPORTANT · GET GENUINE GOOGLE REVIEWS ★

Reviews show what customers actually experienced.

Reviews help potential customers understand what other customers experienced with your business. But there is one common mistake. Many businesses simply tell customers:

✗ *"Please give us a 5-star review."*

That's not the best approach. Instead, **ask your happy customers to share their real experience.**

A better way to ask

INSTEAD OF

✗ *"Can you leave us a review?"*

TRY

"If you were happy with our service, we'd really appreciate it if you could share your experience on Google. You can mention what service you used, what problem we helped you solve and how your experience was."

This gives the customer an idea of what they can talk about.

★ Example of a natural review

Imagine a customer used your digital marketing service. They might naturally write:

R Happy customer

"We worked with Beezy Solutions for social media management. Their team helped us improve our Instagram content and generate more enquiries. The communication was good and the team was very supportive."

That's much more useful than: ✗ *"Best company. 5 stars."*

WHY?

Because the first review explains:

- ✓ What service they used
- ✓ What problem they had
- ✓ What the business helped them with
- ✓ What their experience was

And it still sounds like a real customer experience.

💡 BONUS TIP · MAKE REVIEW COLLECTION EASY

Customers are busy. Even if they are happy with your service, they may forget to leave a review. So make the process easier.

USE AN NFC GOOGLE REVIEW CARD

Tap → Review
→ Done

No need to search for your business manually.
Want to make collecting Google Reviews easier?

Google review opens

Write their experience

SUBMIT ★

How to get your Google review link

- 1 Open your Google Business Profile.
- 2 Look for the option to ask customers for reviews / share your review link.
- 3 Copy the review link provided by Google.
- 4 Open the link yourself to test it.
- 5 Share it with genuine customers through an appropriate channel — e.g. on WhatsApp after a completed service:

"Thank you for choosing us! If you'd like to share your genuine experience, you can leave a Google review here: [Google Review Link]"

LET'S PUT EVERYTHING TOGETHER

Your complete Google lead formula.

01

COMPLETE

Complete every important section of your profile.

02

OPTIMIZE

Clearly explain your services, location and business.

03

UPDATE

Regularly add useful photos, videos and posts.

04

COLLECT

Build a system to collect genuine customer reviews.

05

CONVERT

Make it easy to call, WhatsApp, visit your website or book.

How to check whether your profile can convert visitors into enquiries

Use this simple customer journey:

- 1 Search your business on Google.
- 2 Open your Business Profile as a customer would.
- 3 Check whether your business information is clear.
- 4 Check whether the phone/contact option works.
- 5 Check whether the website opens correctly.
- 6 Check whether the booking/enquiry option works, if available.

EXAMPLE · "DIGITAL MARKETING AGENCY IN KOCHI"

Find profile → Check services → Read reviews → Look at photos →
Click website/contact → Enquire

If any step is broken, fix it before sending more people to the profile.

FINAL CHECKLIST

Before you finish, check your **Google Business Profile**.

- ☐ Business information is correct
- ☐ Primary category is correct
- ☐ Services are added
- ☐ Service areas are accurate
- ☐ Business description is clear
- ☐ Phone number works
- ☐ Website works
- ☐ Opening hours are updated
- ☐ Photos are regularly updated
- ☐ Posts/updates are being used
- ☐ Relevant keywords are used naturally
- ☐ Customers are being asked for genuine reviews
- ☐ Review collection is easy
- ☐ Your enquiry process works

ONE LAST THING...

Knowing isn't enough. You have to **implement it.**

You now know what to do. But your Google Business Profile won't generate leads just because you read this masterclass. You need to:

Optimize

Update

Collect reviews

Improve

Repeat

Over time, your Google Business Profile can become an important source of organic visibility and enquiries for your business.

NEED HELP WITH YOUR GOOGLE BUSINESS PROFILE?

"Okay, I understand what I need to do... but I don't have the time to do all of this myself."

That's completely understandable. A properly managed Google Business Profile requires time, consistency and ongoing work. If you want an expert team to help you with:

Google Business Profile Optimization

Local SEO

Profile Content

Google Posts

Keyword Strategy

Review Strategy

Ongoing Profile Management
